## Fullstack Developer (React & Node.js)

Fullstack Developer with professional experience in building and managing complete software systems using Node.js, React, and TypeScript. Proven ability to optimize deployment pipelines with Docker and CI/CD, reducing delivery time by 40%. I am focused on building reliable, scalable applications and translating complex business requirements into high quality code.

### WORK EXPERIENCE

#### Sowerved Tech

Nairobi • 01/2024 - Present

##### Fullstack Developer

- Managed the full lifecycle of 3 full-stack software systems (Node.js/React), creating robust RESTful APIs and ensuring effective application operations.
- Optimized software deployment processes by implementing CI/CD pipelines (GitHub Actions, Docker), reducing deployment time by 40% and enhancing system reliability.
- Managed and maintained 5+ client business applications (WordPress), optimizing performance by 25% through custom API integrations.
- Collaborated directly with users and stakeholders to translate business requirements into technical specifications.

### SKILLS

Backend	Frontend	Databases	DevOps & Tools	Blockchain (Familiar with)
